Experience

TamTech Solution	Rabat, Morocco
Frontend Developer – Next.js	Apr 2025 – Present
- Lead frontend development of production-grade EdTech platforms using Next.js, Tailwind CSS, and ShadCN UI, improving UI performance and accessibility for thousands of users. - Integrated REST and GraphQL APIs with backend teams, reducing data-fetching latency and improving page load times. - Enforced security best practices, design patterns, and code review standards across the engineering team.	
Django Developer	Dec 2024 – Apr 2025
- Architected and executed a full platform migration from Laravel to Django, enabling AI-ready backend infrastructure and improving system modularity. - Developed backend features for education management and meeting coordination systems using Django REST Framework.	
Laravel Developer	Mar 2024 – Nov 2024
Maintained and enhanced Laravel-based LMS platforms serving active student and instructor user bases, delivering feature updates that improved engagement workflows.	
Software Engineering Intern – Laravel	Nov 2023 – Feb 2024
Contributed to legacy platform maintenance and implemented BigBlueButton API integration to enable live virtual classroom functionality.	
3wdev l'agence	Rabat, Morocco
Full-Stack Developer	Aug 2023 – Nov 2023
Delivered full-stack web solutions for client projects using modern web technologies across both frontend and backend layers.	
DIGENCY – Agence Digitale	Rabat, Morocco
Full-Stack Developer	Apr 2023 – May 2023
Built and deployed digital web products for agency clients, contributing to end-to-end development across the stack.	

Education

Mohammed V University in Rabat	Rabat, Morocco
Bachelor of Technology – Big Data & Artificial Intelligence	Dec 2025 – Present
Institut Spécialisé de Technologie Appliquée (ISTA), Hay Nahda	Rabat, Morocco
Specialized Technician Diploma – Full-Stack Web Development	Oct 2021 – Jul 2023
